***Allowable Subject Matter***

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-12, the cited prior art does not disclose, teach or suggest, alone or in combination, the claimed module for a data carrier, which module includes an integrated component with at least two connection contacts and, for each connection contact, a connecting part electrically conductively connected to the relevant connection contact, the connection contacts being constructed so as to project from the integrated component and provide a first major surface, the connecting parts comprising remnants of raised portions, which remnants project from the connecting parts in the direction of the connection contacts; wherein two or more of the remnants which project from each of the connecting parts in the direction of the connection contacts are physically in contact with the first major surface of the relevant connection contact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

Applicants' arguments, see REMARKS section on amendment, filed 2/18/06, with respect to independent claims 1 and 7 have been fully considered and are persuasive. The rejection of claims 1-12 has been withdrawn. The Examiner agrees with applicants

that independent Claims 1 and 7 have been amended to make clear that the connection contacts have a first major surface and that two or more of the remnants which project from each of the connecting parts in the direction of the connection contacts are physically in contact with the first major surface of the relevant connection contact for which the cited prior art does not disclose, teach or suggest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adolfo Nino whose telephone number is (571) 272-1981. The examiner can normally be reached on M-F (7:30-5:00).
